

SUMMARY

As a **junior software developer** with a strong passion for **coding and problem-solving**, I bring a solid foundation in software development and a keen interest in learning and growing within the industry. Although I don't have professional experience, I have actively pursued personal coding projects and honed my skills through self-guided learning and online courses. I am eager to contribute my knowledge and adaptability to a collaborative and challenging environment

EXPERIENCE

FUNDING METRICS

May 2021- Apr 2022 / Costa Rica

DATA ANALYST

- Leveraged strong analytical skills and attention to detail to perform data analysis and generate meaningful insights for decision-making purposes.
